3

## ● RESEARCH

### Research, Analysis & Testing

Elevating Industries through Research, Analysis & Innovation Expertise

# OUR TESTING & RESEARCH

To ensure the quality, reliability, and performance of both hardware and software solutions, we perform rigorous testing and research. Our dedicated team of experts specializes in conducting comprehensive testing and research activities to validate and optimize technology products across a wide range of domains and industries.

**Quality Assurance:** We conduct thorough testing to verify the functionality, durability, and compliance of electronic components, devices, and systems. Our testing processes adhere to industry standards and best practices, ensuring that hardware products meet the highest quality standards.

We employ a variety of software testing techniques, including functional testing, regression testing, and performance testing, to ensure the reliability, functionality, and usability of software applications. Our testing processes are tailored to the specific requirements of each project, enabling us to deliver high-quality software solutions.

**Performance Optimization:** Through performance testing and analysis, we identify bottlenecks, inefficiencies, and potential improvements in hardware designs and configurations. Our goal is to optimize performance, enhance reliability, and maximize the efficiency of hardware solutions.

**Innovative Research:** Our research initiatives in hardware focus on emerging technologies, such as embedded systems, IoT devices, wearable technology, and smart sensors. We explore novel hardware architectures, design methodologies, and integration techniques to drive innovation and address complex challenges.

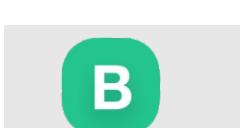

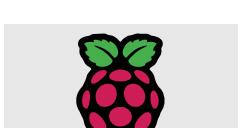

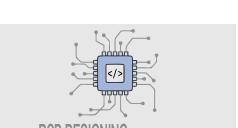

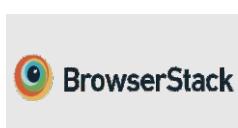

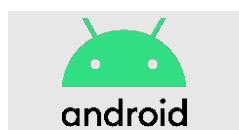

**Security Testing:** Security is a top priority in today's digital landscape. We conduct thorough security testing to identify vulnerabilities, threats, and risks in software systems. Our goal is to protect sensitive data, mitigate security breaches, and ensure compliance with regulatory requirements.

**Cutting-edge Research:** Our research in software encompasses emerging technologies, such as artificial intelligence, machine learning, blockchain, and quantum computing. We explore innovative software architectures, algorithms, and methodologies to address evolving business needs and drive digital transformation.

# RESEARCH TECHNOLOGIES

We offer technology solutions from web design to software development and from Computer design(CAD) to hands-on robotics, tailored to meet your unique needs across all Technical streams - CS/IT/EC/EE/CE/ME.

# RESEARCH AREAS

At forefront of research, Techpile tends to explore the latest trends and advancements in the ever-evolving landscape of technology. Our team is committed to pushing the boundaries of innovation and uncovering new possibilities in areas such as **Artificial Intelligence (AI)**, **Machine Learning (ML)**, **Internet of Things (IoT)**, **Web Technologies and Industry 5.0**.

As we are transitioning towards Industry 5.0, we investigate the convergence of digital technologies with traditional manufacturing processes. Our research encompasses smart factories, cyber-physical systems, collaborative robots, and digital twins, revolutionizing the way industries operate and enabling greater flexibility, customization, and efficiency.

The infographic consists of three orange rectangular boxes, each containing an icon and text. The first box on the left is titled 'ROBOTICS' with an icon of a robotic arm. The middle box is titled 'ARTIFICIAL INTELLIGENCE' with an icon of a lightbulb. The third box on the right is titled 'MACHINE LEARNING' with an icon of a brain inside a circuit board. Below each title is a descriptive paragraph.

| Research Area           | Description   |
|-------------------------|---|
| ROBOTICS                | The Era of Connected things is held by Robots with Internet which acts as devices and called as things in IoT             |
| ARTIFICIAL INTELLIGENCE | Artificial intelligence (AI) and the Internet of Things (IoT) are closely related technologies that complement each other |
| MACHINE LEARNING        | IoT Uses Machine Learning in Data Processing, Handling, Predictive Analysis, Insight & Behaviour Management               |

# OUR APPROACH

## TO CURRENT TRENDS & INDUSTRY

To drive positive change in the world with our research we extend our approach using:

**Collaborative Partnerships:** We collaborate with industry partners, academic institutions, and research organizations to leverage and spread collective expertise and resources in our research endeavors.

**Experimental Prototyping:** We employ experimental prototyping and proof-of-concept development to validate research findings and demonstrate real-world applications.

**Thought Leadership:** Through publications, presentations, and thought leadership initiatives, we share our research findings and insights with the broader community, contributing to the advancement of knowledge and innovation in the field of technology.

### We thrive for:

- **Expertise:** Benefit from our team of skilled professionals with expertise in a wide range of technologies and domains.
- **Innovation:** Stay ahead of the curve with our innovative solutions and cutting-edge technologies.
- **Quality:** Experience uncompromising quality and reliability in every project we undertake.
- **Customer-Centric Approach:** We prioritize customer satisfaction and strive to exceed expectations in every interaction.
- **Tailored Solutions:** From customized software development to comprehensive training programs, we offer solutions tailored to your unique needs and objectives.

# SOFTWARE DEVELOPMENT SERVICES

At Techpile Technology Pvt Ltd, we offer a comprehensive range of cutting-edge services tailored to meet the diverse needs of our clients.

## **Web Designing:**

Elevate your online presence with our expert web designing services. We craft visually stunning and user-friendly websites that captivate audiences and drive engagement.

## **Software Development:**

Harness the power of custom software solutions tailored to your specific requirements. Our team specializes in developing robust software applications that streamline processes and enhance productivity.

## **E-Commerce & ERP Development:**

Unlock the full potential of your e-commerce operations with our ERP development services. We integrate comprehensive ERP solutions to optimize your business processes and drive growth.

## **Mobile Application Development:**

Stay ahead of the curve with our mobile application development services. From iOS to Android, we create intuitive and feature-rich mobile apps that resonate with your target audience.

## **Web Development:**

Create a strong digital foundation with our professional web development services. We leverage the latest technologies to build responsive and scalable websites that deliver exceptional user experiences.

# SOFTWARE DEVELOPMENT SERVICES

At Techpile Technology Pvt Ltd, we offer a comprehensive range of cutting-edge services tailored to meet the diverse needs of our clients.

## **Domain Hosting:**

Ensure reliability and security for your online assets with our domain hosting services. We provide robust hosting solutions to keep your website accessible and secure round the clock.

## **SEO & SMO:**

Boost your online visibility and reach with our SEO and SMO services. Our experts employ proven strategies to optimize your website's search engine rankings and enhance social media presence.

## **Graphic Designing:**

Make a lasting impression with our creative graphic designing services. From logos to marketing collateral, we deliver visually striking designs that resonate with your brand identity.

## **Custom Software Development:**

Address your unique business needs with our custom software development services. We collaborate closely with you to develop tailor-made solutions that drive efficiency and innovation.

## **Software & Hardware-based Training:**

Empower your team with our comprehensive software and hardware training programs. We offer hands-on training sessions to equip your workforce with the skills needed to excel in today's technology-driven world.

## OUR CLIENTS

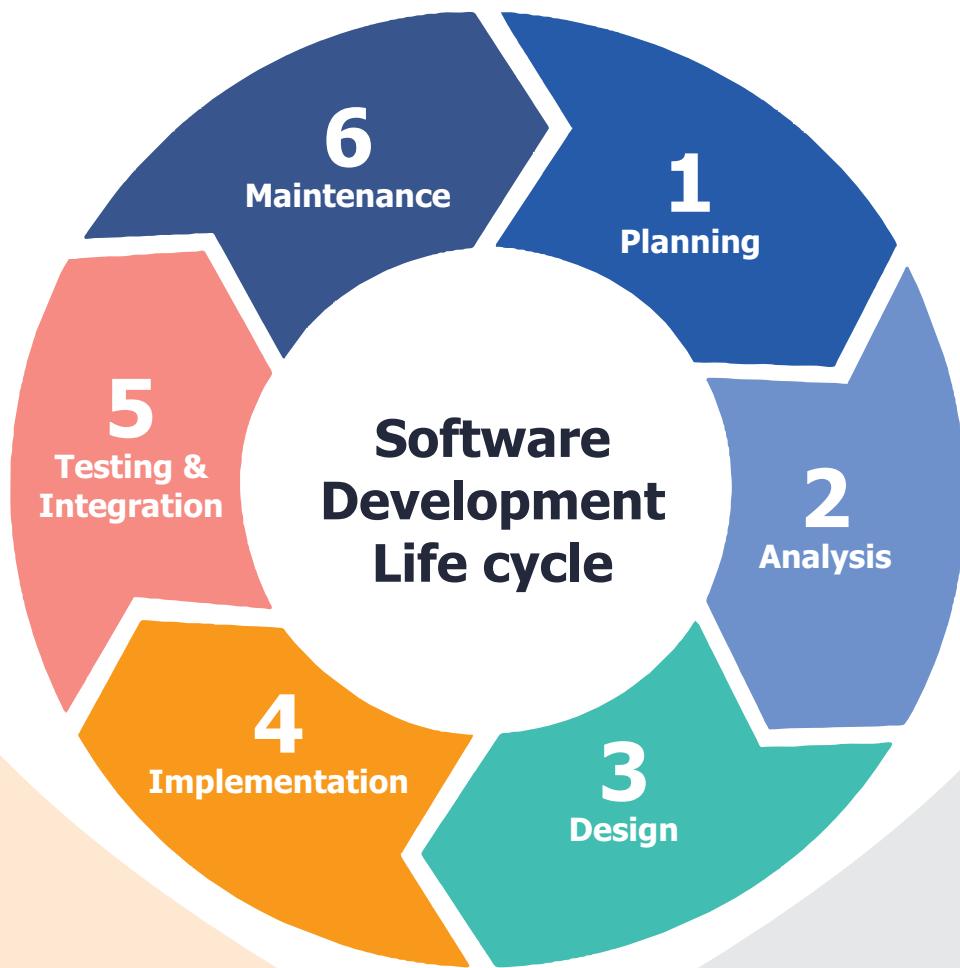

# HOW WE DEVELOP?

At Techpile Technology Pvt Ltd, we understand that every software project is unique. That's why we tailor our approach to fit the specific needs of each project and client. We employ a variety of project management methodologies, including Kanban, Waterfall, and Agile, based on factors such as project requirements, timeline, budget, and resources.

By Flexible methodology selection, we select the most appropriate option on project's specific requirements. Whether it's Kanban for continuous flow, Waterfall for sequential development, or Agile for iterative delivery, we adapt to suit your needs.

We make sure for a flexible, adaptive, and results-driven approach to software development.

# DEVELOPMENT STAGES

## Software Development Stages

At Techpile, we follow a structured and comprehensive software lifecycle plan to ensure the successful development, deployment, and maintenance of high-quality software solutions. Our Software encompasses the following key phases.

### 1. Requirements Analysis:

The software development process begins with a thorough analysis of your business requirements and objectives. Our team collaborates closely with you to gather and document detailed requirements, ensuring a clear understanding of the project scope and objectives.

### 2. Design and Planning:

Based on the gathered requirements, we proceed to design the architecture and user interface of the software solution. Our experienced designers and architects develop detailed design specifications and create wireframes or prototypes to visualize the end product. We also create a comprehensive project plan, outlining the timeline, resources, and deliverables for each phase of the project.

### 3. Development and Implementation:

With the design and plan in place, our team of skilled developers begins the implementation phase. We follow best practices and coding standards to develop robust, scalable, and maintainable software solutions. Throughout the development process, we conduct regular code reviews and testing to ensure adherence to quality standards and minimize defects.

### 4. Testing and Quality Assurance:

Quality assurance is an integral part of our software lifecycle plan. We conduct rigorous testing at various levels, including unit testing, integration testing, system testing, and user acceptance testing. Our QA engineers use automated testing tools and manual testing techniques to identify and address any issues or defects, ensuring the software meets the highest quality standards.

### 5. Deployment and Integration:

Once the software solution has been thoroughly tested and validated, we proceed to deploy it to our clients.

Our team manages the deployment process carefully, ensuring a smooth transition from development to production. We also provide integration services to seamlessly integrate the new software solution with existing systems and infrastructure.

### 6. Maintenance and Support:

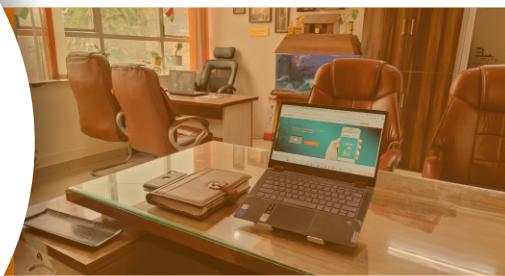

Our commitment to delivering exceptional software solutions doesn't end with deployment. We offer ongoing maintenance and support services to ensure the continued performance, reliability, and security of your software solution. Our dedicated support team is available round-the-clock to address any issues, provide technical assistance, and implement software updates or enhancements as needed.

### 7. Monitoring and Optimization:

We continuously monitor the performance and usage of the software solution to identify opportunities for optimization and improvement. Through proactive monitoring and analytics, we ensure that your software solution remains aligned with your evolving business needs and delivers maximum value over time.

# TEAM WORKFLOW

Effective teamwork is the cornerstone of success. Our team workflow is carefully designed to foster collaboration, innovation, and excellence in every project we undertake. Here's an overview of how we work together to deliver outstanding results:

## 1. Collaboration and Communication:

We prioritize open communication and collaboration among team members.

Regular team meetings, brainstorming sessions, and project updates ensure that everyone is aligned on project goals, timelines, and expectations.

## 2. Agile Methodology:

We embrace Agile principles to adapt quickly to changing requirements which promotes flexibility, transparency, and continuous improvement, allowing us to respond effectively to client feedback and deliver high-quality solutions on time and within budget.

## 3. Clear Roles and Responsibilities:

Each team member has clearly defined roles and responsibilities within the project. This clarity ensures accountability and empowers team members to take ownership of their tasks, leading to greater efficiency and productivity.

## 4. Cross-Functional Teams:

We assemble cross-functional teams by bringing together specialists from different disciplines, we leverage the collective knowledge and experience of our team to deliver comprehensive solutions that exceed client expectations.

## 5. Continuous Learning and Growth:

We foster a culture of continuous learning and growth within our team. Regular training sessions, knowledge-sharing initiatives, and professional development opportunities enable our team members to stay updated on the latest technologies and best practices, ensuring that we deliver cutting-edge solutions to our clients.

## 6. Quality Assurance and Testing:

Quality is paramount in everything we do. Our dedicated quality assurance team conducts thorough testing at every stage of the development process to identify and address any issues or defects promptly. This rigorous testing ensures that our deliverables meet the highest standards of quality and reliability.

## 7. Client-Centric Approach:

Above all, we are committed to delivering exceptional value to our clients. We prioritize client satisfaction and strive to exceed their expectations in every project we undertake. By understanding our clients' needs and goals, we tailor our workflow to ensure that we deliver solutions that address their specific requirements and drive tangible business results.

# WHY TECHPILE FOR DEVELOPMENT?

## Expertise Across Diverse Technologies

We boast a team of seasoned professionals with expertise across a wide range of technologies and domains. Whether you need web development, mobile app development, or custom software solutions, our team has the skills and knowledge to deliver exceptional results.

## Flexible and Adaptive Approach

We understand that every project is unique, which is why we adopt a flexible and adaptive approach to software and project development. From Agile to Waterfall, we tailor our methodologies to suit the specific requirements of each project, ensuring optimal results and satisfaction.

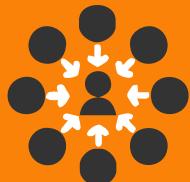

## Commitment to Quality and Excellence

Quality is at forefront of everything we do at Techpile. Our dedicated team of quality assurance experts conducts rigorous testing, validation to ensure that our deliverables meet the highest standards of quality, reliability, and performance.

## Client-Centric Focus

At Techpile, we prioritize client satisfaction above all else. We take the time to understand our clients' needs, goals, and challenges, and tailor our solutions accordingly. We ensure that we deliver solutions that not only meet but exceed our clients' expectations.

# CREATIVE TEAM

Techpile is equipped with well experienced and the finest team members to embrace, develop and guide young and future IT developers. Our team is carefully created to foster collaboration, innovation, and excellence in every project we undertake.

At Techpile Technology Pvt Ltd, we are dedicated to driving innovation, fostering creativity, and empowering businesses and individuals to thrive in the digital age. With a passion for excellence and a commitment to delivering superior technology solutions, we are your trusted partner on the journey towards digital transformation.

Effective communication and collaboration are key to the success of any project. We believe in Collaboration, Teamwork and Continuous learning to meet the time lines, and expectations and to grow individually in the Sector. We emphasize transparent and open communication channels throughout the project lifecycle, ensuring that our clients are kept informed every step of the way. Our approach fosters trust, transparency, and accountability, resulting in seamless project delivery and client satisfaction.

Multiple professional development opportunities enable our team members to stay updated on the latest technologies and best practices, ensuring that we deliver cutting-edge solutions to our clients. Group of Volunteers and Interns working in the company are regularly monitored by their team leads. Proper Guidance, Regular Meetings and Evaluations are held for effective development. We are committed to:

- **Excellence:** Striving for excellence in everything we do, from product development to customer service.
- **Integrity:** Upholding the highest standards of integrity, ethics, and professionalism in all our business dealings.
- **Innovation:** Embracing innovation and embracing change to drive continuous improvement and growth.
- **Partnership:** Building strong and enduring partnerships

# DIRECTOR'S MESSAGE

## Ajay Verma

I am privileged to lead a dynamic team with individuals who are dedicated to shaping the future of technology. Together, we are always committed to providing cutting-edge IT solutions and comprehensive technical training to engineers, fostering innovation, and building a skilled workforce for the challenges of tomorrow.

# CORE TEAM

## Rahul Verma Managing Director

At Techpile, we always believe in power of collaboration and continuous learning, driving excellence in every endeavor.

We are not just focussed on building a company; We are cultivating an ecosystem of knowledge, collaboration, and success.

## Divya Rai Project Manager

Techpile's commitment to excellence is not just a philosophy but a way of life. As a senior member of this remarkable team, I am proud to be part of an environment that values expertise, encourages collaboration, and embraces thought of continuous learning.

## Prateek Mishra R&D Manager Ops.

We are always excited to illuminate the vibrant pulse that powers our quest for innovation. We don't just navigate industry trends; we are very focussed on sculpting them.

Developing and carving out new frontiers and set benchmark for what's next in the world of tech.

## Savan Rai Business Development Executive

I am proud to be part of an organization which has a passion for innovation, client-centric approach which sets us apart in the competitive landscape. Together ,we create meaningful connections, foster growth, and contribute to the success of our clients.

# WORK CULTURE

We believe in fostering creativity, collaboration, and innovation. Our friendly and transparent work culture is at the heart of everything we do, and here's how we make it happen:

## **Open Communication:**

We value open and honest communication at all levels of the team. Whether it's sharing ideas, providing feedback, or addressing concerns, everyone's voice is heard and respected.

## **Team Spirit:**

We celebrate successes together, support each other through challenges, and recognize individual contributions which nurtures collaboration, creativity & mutual respect among team members.

## **Approachable Leadership:**

Leadership team is approachable, accessible, and supportive. Whether you're a new hire or a seasoned employee, our leaders are always available to lend an ear, offer guidance, and provide mentorship. Their door is always open, and they lead by example, promoting a culture of trust, empowerment, and accountability.

## **Transparency in Processes:**

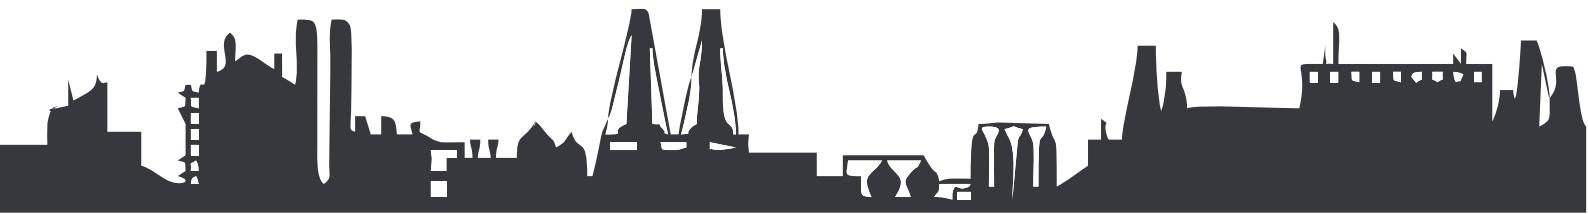

From project's timeline and budgets to company policies and decisions, we strive to keep everyone informed and involved. This has always been important for us to build trust and confidence among employees, fostering a sense of ownership and pride in their work.

## **Work-Life Balance:**

We understand the importance of maintaining a healthy work-life balance. Our flexible work hours, In-door and out-door gaming options, remote work options, Tours and wellness initiatives ensure that employees have the flexibility and support they need to thrive both professionally and personally. We prioritize employee well-being, recognizing that happy and fulfilled employees are key to our success.

## **Continuous Improvement:**

We are committed to continuous learning and improvement. We encourage employees to pursue professional development opportunities, attend training programs, and share knowledge with their peers. Our culture of learning fosters personal growth and professional advancement, empowering employees to reach their full potential.

# TRAINING TYPES

We offer a diverse range of training programs designed to empower individuals and organizations with the skills and knowledge needed to excel in the fast-paced world of technology. Our comprehensive training programs include:

1

## 1. Summer Training:

Summer training programs provide students with an opportunity to gain hands-on experience and practical knowledge in various cutting-edge technologies during their summer break.

Audience: Individuals Pursuing B.Tech / M.Tech / BCA / MCA / Diploma

2

## 2. Apprenticeship Programs:

Our apprenticeship programs offer a unique blend of on-the-job training and classroom instruction. We partner with leading organizations to provide job opportunities to our Apprentice trainees across the IT industry.

Audience: Individuals who have completed B.Tech / M.Tech / BCA / MCA / Diploma with No (Freshers) or Very Little Work Experience

3

## 3. Faculty Development Program:

This Program is designed to empower educators with the latest knowledge and teaching methodologies in technology-related subjects. It is a hands-on training session to stay abreast of industry trends.

Audience: Faculties, Lab Operators, Trainers & Teachers who are working in Technical Institutes, Organizations and Universities

4

## 4. Corporate Training:

We offer customized corporate training programs tailored to the specific needs and objectives of organizations. Whether it's upskilling employees in new technologies or enhancing team collaboration and productivity.

Audience: Technology Based - for Employees working in Organization

5

## 5. Vocational Training:

This training programs provide practical skills and job-specific training to individuals seeking employment or career advancement in specialized fields.

Audience: Individuals Pursuing B.Tech / M.Tech / BCA / MCA / Diploma

# TRAINING TYPES

We offer a diverse range of training programs designed to empower individuals and organizations with the skills and knowledge needed to excel in the fast-paced world of technology. Our comprehensive training programs include:

6

## 6. Winter Training:

Winter training programs offer students an opportunity to enhance their skills & knowledge during the winter break. With a focus on practical learning and industry-relevant projects, this helps students stay productive and competitive during the off-season.

Audience: Individuals Pursuing B.Tech / M.Tech / BCA / MCA / Diploma

7

## 7. On-Campus Training:

We collaborate with educational institutions to offer on-campus training programs tailored to the needs of students. Hands-on sessions conducted within the campus premises, providing students with convenient access to valuable learning opportunities.

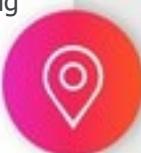

Audience: Individuals Pursuing B.Tech / M.Tech / BCA / MCA / Diploma

8

## 8. Industrial Training:

Our industrial training programs bridge the gap between academic learning and industry requirements by providing students with exposure to real-world work environments and challenges. Through internships & practical training modules, we prepare students for their chosen career fields.

Audience: Individuals Pursuing B.Tech / M.Tech / BCA / MCA / Diploma

## 5. Employment Based Training:

This training programs are designed to equip individuals with the skills & certifications needed to secure employment in high-demand industries. Audience: Individuals who have completed B.Tech / M.Tech / BCA / MCA / Diploma with No (Freshers) or Very Little Work Experience

# OUR STUDENTS

## REVIEW

### Anand Singh (IET Lucknow)

I have joined 6 months apprenticeship program from Techpile, Lucknow. Here I learned all the latest technologies which are essential for web development. Now I have got selected as Dot Net Developer in Sensation Software Solution Pvt Ltd. All the credit for this achievement of mine goes to Divya Mam and Rahul Sir and Techpile Team. Thank you for all your efforts.

### Sharad Sani (GCRG, AKTU)

Hii, This is Sharad from AKTU.

In my point on the Techpile Technology company is best for me because the facility of this company or a training institute is best for me and I think this institute Suggest to work hard in your life and make yourself proud. And the teacher and volunteer is help everyone to complete project. Who interested in coding so please visit there.

### Ashwani Pandey (CSJMPG Ambedkarnagar)

It was the best experience in my life to learn with Techpile Technology. All I can say Techpile is the best training institute for software developers & programmers in Lucknow. The best thing I experienced here that teachers are very familiar to students. Recently, A campus placement has been done here by Sagar Informatics Pvt Ltd from New Delhi and I have been selected as a .Net Developer. Thank You Techpile & team for the best memories..... :

### Noyal Gupta (MJP GP Kausambi )

I am student of MJP Govt. Polytechnic Kaushambi recently I done apprenticeship program from Techpile and got placed in TCM, Ahmedabad. Such a amazing experience with Techpile I feel during my training. They helped me a lot to accquire knowledge from basic to advance. Thank you Team.

### Ishna Sen (FGP Raebareli)

Hello, myself Ishna Sen from FGP, Raebareli. I want to share my experience with Techpile Technology pvt ltd Lucknow. Techpile Technology pvt ltd is a best place where a students can make their future bright and musical. Rahul sir who is training head have a lot of knowledge and a good personality. Techpile is the best software company and best software training institute. Thank you so much sir and ma'am and all Techpile members.

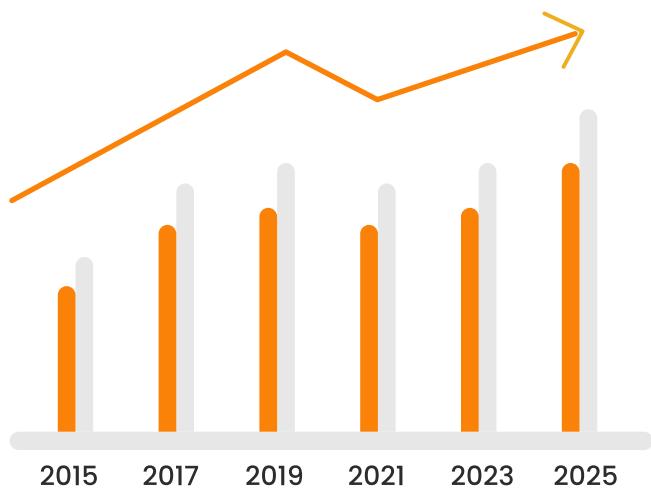

### Astha (GGP Gorakhpur)

Techpile is best training plateform for CS and IT students and here we gain more and more knowledge about different languages like html, css,js, jQuery,bootstrap,c, python and many more. Teachers of techpile are very friendly and supportive, they teach topic again and again until that topic is not understandable by the Student. So I suggest all the students of CS and IT field to join techpile for their training and get some valuable knowledge.

# ACADEMIC RECORDS

# WHY CHOOSE US?

## Transforming Industry-Ready Professionals

We recognize that fresh graduates entering the workforce may initially lack certain skills expected in professional settings. We ensure that freshers are well-prepared, confident, and ready to make meaningful contributions to the corporate sector. At Techpile, we say. "Enter as Trainee, Exit as Professional"

## Talent is Recruited, Not Charged

Unlike traditional practices, we do not charge companies for acquiring talent from our pool of skilled trainees. We aim to strengthen collaborations, uplift the industry, and build enduring partnerships with our recruiters. We believe that the quality talent should seamlessly integrate into workforce without any financial & systemic barriers.

## Quality with Consistency

Quality can never be compromised. Our commitment to the excellence has been the driving force behind our consistent quality in nurturing talent, facilitating seamless placements, and constructing enduring legacies over the past few years.

Our track record speaks volumes as we have reached to a state with 100% Placement record with growing popularity every year.

## Crafted Skill-Set

We understand that knowledge in IT Industry must be timely, relevant & deeply ingrained. Our training programs are crafted to provide trainees with not just fundamentals but an in-depth understanding of latest industry trends, tools and technologies. This makes trainees well developed with the skill set they need in their respective domain of working background.

# OUR RECRUITERS

In the spirit of growth and collaboration, we extend our heartfelt thanks to our Recruiting Partners and Companies for being a crucial part of our Placement Program.

Your commitment to identifying & nurturing talent has not only made significant impact on the career of our trainees, it also contributes to innovation & dynamism of the IT industry. Few of our recent recruiters include-

# HIRE FROM US

Dear Hiring Manager, Thank you for considering us, we are excited about the opportunity to collaborate with you and support your talent acquisition needs. Below is a step-by-step procedure outlining how to hire trained apprentice trainees from Techpile:

1. Contact our Talent Acquisition team at hr@techpile.in to express your interest and requirements.
2. We will Schedule an initial consultation meeting to discuss your organization's hiring requirements, expectations, and the specific skills and qualifications you are looking for in apprentice trainees.
3. We will first out-filter our candidates with
  - Desired skills and qualifications
  - Educational background and experience requirements
  - Technical competencies and areas of expertise
  - Any specific project requirements or industry-specific knowledge
4. Based on the candidate profile provided, apprentice trainees who meet your hiring criteria will be held for thorough screenings, interviews, and assessments to ensure best fit for your organization's needs.
5. Interview and Selection: Schedule interviews with the short-listed candidates to further evaluate their fit for the apprentice trainee position. During the interviews, you will have the opportunity to assess each candidate's technical capabilities, communication skills, and cultural fit with your organization. Based on the interview feedback, select the candidates you would like to hire as apprentice trainees.
6. Offer and Onboarding: Once you have identified the candidates you would like to hire, extend job offers to them outlining the terms and conditions of employment, including compensation, benefits, and start date. We ensure a smooth transition for the apprentice trainees into your organization.
7. Ongoing Support and Feedback: Throughout the apprenticeship period, Techpile will provide ongoing support and guidance to both you and the apprentice trainees to ensure a successful and rewarding experience for all parties involved.  
We welcome your feedback and input throughout the apprenticeship program to continuously improve and enhance our services.

# SUMMER TRAINING (CS/IT/BCA/MCA)

## SUMMER TRAINING

DIFFERENT PROCESS OF COMPLETION:

**STEP  
01**

### BASIC SESSION

HTML-5,CSS-3, BOOTSTRAP C Programming,  
JAVASCRIPT, JQUERY, DATABASE(SQL)

**STEP  
02**

### TECHNOLOGY SESSION

Python with Django, PHP with CI/Laravel,  
Net with MVC, Java with hibernate spring MERN  
Stack, Android with Java, , Mean Stack

**STEP  
03**

### PROJECT SESSION

A major project with min 20 Module  
based on advance real time problems like online  
education ,online services, online shopping

**STEP  
04**

### EXTRA ACTIVIES

HR Skills, Group Discussion, CV &  
Resume making, Graphic Designing, Mock  
Interview, Digital Marketing

**STEP  
05**

### PRO. SUBMISSION & HOSTING

Provides 1 unique URL for each project  
that will be active for one year.

**STEP  
06**

### FAREWELL & AWARD DIST.

Star Performer, Best Performer  
Outstanding, Scholarship

## Additional Benefits:-

5 hour daily classes

**01**

Free Web Hosting  
for 1 Year

**05**

Recovery Class for  
each Session

**02**

Free JAVA classes for  
1 Year

**06**

Study Material of  
each languages

**03**

Project file according  
to project

**07**

Free acces of online  
portal for 1 Year

**04**

Hostel and Room  
Guidence

**08**

# SUMMER TRAINING (EE/EC/IC/EEE)

## SUMMER TRAINING

DIFFERENT PROCESS OF COMPLETION:

**STEP  
01**

### FOUNDATION

BASIC ELECTRONICS/ELECTRICAL CONCEPTS,  
ELECTRONIC CIRCUITS DESIGN & PRINCIPLES

**STEP  
02**

### DETERMINATION

PCB DESIGN TECHNIQUES/ DIGITAL ELECTRONICS E.W.D./ELECTRICAL & AUTOMATION STANDARDS

**STEP  
03**

### DEVELOPMENT

EMBEDDED SYSTEMS, ROBOTICS-CONCEPTS, PLC, D.C.S, CPU-ARCHITECTURE, ATMEG/ARDUINO DELTA/ALLEN BRADLEY,

**STEP  
04**

### EXTRA ACTIVITIES

FLOW CONTROL, C PROGRAMMING, HR SKILLS, COMM. SKILLS, CV & RESUME MAKING, MOCK INTERVIEW, PROJECTS

**STEP  
05**

### INNOVATION

HANDS-ON ROBOTICS, ESP-NODE, PI, MICRO-PY, IOT, AWS, SINRIC, BLYNK, SS2-PLC-HANDS-ON, HMI-SCADA, IIoT,

**STEP  
06**

### RECOGNITION

FAREWELL PROJECT DEMONSTRATION, PRIZE DISTRIBUTION, STAR PERFORMER, BEST PERFORMER, SCHOLARSHIP

## Additional Benefits:-

5 hour daily classes

**01**

Project Documents.  
of Developed Project

**05**

Recovery Class for  
each Session

**02**

Free Practice Exercises  
for Skill Development

**06**

Study Material of  
each module

**03**

10+ Industry Standard  
Hands-On Mini Projects

**07**

Free access of online  
portal for 1 Year

**04**

Hostel, and Room  
Guidance for Stay

**08**

# LEARNING ODYSSEY

Our trainees receive a multitude of exclusive perks that make their training experience truly exceptional. Firstly, they benefit from personalized mentor-ship from experts, guiding them through every aspect of their chosen field.

In addition, trainees gain access to exclusive Learning Material, seminars, and networking events, creating valuable connections within their industry. With a robust curriculum that evolves with industry trends, our apprentices also receive benefits as:.....

## Competitions & Skill Development

We organise regular competition, Debates & evaluation rounds for Trainees to nurture Team Building & Soft Skills.

## Sports & Entertainment

To make Environment Fun with Learning, Techpile offers trainees Sports equipments and area to play Indoor (Chess,Carrom) & Outdoor (Cricket, Bat-Minton) games

## Uninterrupted Learning

Online access to Technology based Learning Material using Mobile App & Web Portal

“

we are dedicated to nurturing talent & ensuring our trainees not only excel in their training but to also emerge as future leaders in their respective fields.

# GLIMPSE OF FESTIVAL CELEBRATION

# CULTURE AT TECHPILE

# TRAINING & WORKSHOP INVITATION

We are always open to collaborate on a training/workshop program aimed at enhancing the technical skills and knowledge of students/members of Organizations, Institutes, College or University. It is always our priority to foster talent and preparing the next generation of tech professionals for success in the digital age.

**Our Offerings:** We offer a wide range of training and workshop programs designed to cater to the diverse needs and interests of students/members. Our programs cover topics such as:

- **Web Technologies**
- **Web Development using PHP, .Net & Django Framework**
- **Python Programming with Advanced Modules**
- **Android Mobile Applications Development**
- **Java Programming**
- **C Programming**
- **Data science and analytics**
- **Artificial intelligence and Machine learning**
- **Internet of Things**
- **Embedded Systems**
- **Robotics**
- **PCB Designing Techniques**
- **PLC-SCADA**
- **Industrial Automation**
- **3D Printing & CAD**
- **AutoCAD with Solidworks**
- **AutoCAD with BIM Techniques**

And more...

# COLLABORATION BENEFITS

Collaborating with Techpile offers several benefits for your institution/organization and its members, including:

- Access to industry-leading experts and instructors
- Hands-on learning experiences with real-world projects
- Networking opportunities with professionals in the tech industry
- Certification upon successful completion of the program
- Enhancement of students'/members' resumes and skill sets
- Potential for future collaboration and partnership opportunities

If your institution/organization is interested in collaborating with us for a training/workshop program, please follow these steps:

1. Send us an email at [techpileko@gmail.com](mailto:techpileko@gmail.com), expressing your needs.
2. Provide details about the preferred training/workshop topics, duration, and expected number of participants.
3. Once we receive details, we would love to have a verbal discussion with Authority personnel to discuss the program details, logistics, and customization options.
4. Confirm the collaboration and remark outlining the terms and conditions of the partnership.
5. Coordinate with our team to plan and execute the training/workshop program successfully.
